GitHub: <https://github.com/KhalidMujahid>

Address: Gbeganu along bida road,
Minna,
Niger state,
Nigeria

Objective

Responsive for Designing and developing a highly scalable and available cloud back using MongoDB optimizing and performance tuning to process a large volume of data streams for analysis and persistence

Skills

HTML, CSS, Bootstrap, JavaScript, React, NodeJS, ExpressJS, MongoDB

Work Experience

Chat Application

Technology:

Front end: React, Redux

Back end: NodeJS, ExpressJS, Socket.io

Database: MongoDB

Link: <https://iconnectnetwork.netlify.app>

Result checking system

Technology:

Front end: React, Redux

Back end: NodeJS, ExpressJS

Database: MongoDB

Link: <https://online-result-checker.netlify.app>

Face Detector AI

Technology:

HTML, CSS, JavaScript

Link: <https://face-dectector.netlify.app>

Food Recipe

Technology:

Front end: React

Link: <https://foodapp-test.netlify.app>

Hotel Visitors Management System

Technology:

Back end: NodeJS, ExpressJS,EJS

Frond end: Bootstrap, JavaScript

Database: MongoDB

Link: <http://visitor-managements.herokuapp.com>

CBT Exam Verification System

Technology:

Frond end: React

Back end: NodeJS, ExpressJS

Database: MongoDB

Link: <https://cbt-examinations.netlify.app>
